10 GOOD REASONS FOR GERMANY TO BECOME YOUR LOGISTICS GATEWAY AND HUB IN EUROPE

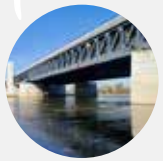
Germany ...

1. is Europe's economic centre and the world's fifth largest national economy.

2. is the gateway to Europe, and its most attractive location for goods distribution.

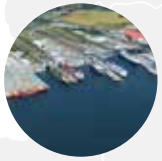
3. is a trans-European hub with nine neighbouring countries.

4. provides access to about 250 million consumers within a catchment area of 500 kilometres.



5. offers the most advanced transportation infrastructure worldwide.

6. lets you choose from a wide range of capable logistics locations.



7. is home to fast and flexible logistics services with trade-specific solutions and expertise in all segments of logistics.

8. has highly-skilled and flexible employees.

9. is home to many global players.

10. is the largest logistics market in the European Union.

Would you like to
- **tap into the European market?**
- **expand your market presence in Europe?**

Are you looking
- **for customized logistics solutions?**
- **for logistics partners?**

Logistics made in Germany unites many different professional logistics services, providing you with targeted support in market development and expansion.

Whether by air, sea, inland water or land, excellent infrastructure and connections to the trans-European transport axes make Germany a European logistics hub.

Germany gives you access to the European single market. Your goods reach their destination overnight; they can reach over 250 million consumers within 36 hours.

Highly-qualified logistics service providers work reliably and flexibly and are drivers of innovation. Whether it's perishable goods or entire power stations, we find the right German logistics partners for your requirements.
